***CONVERSION CALCULATION:**

0-5 MIT Units = 0 Harvard Credits

6-8 MIT Units = 2 Harvard Credits

9-21 MIT Units = 4 Harvard Credits

Students may not receive more than 8 Harvard credits in total for their MIT ROTC courses.

^^ MIT ROTC staff may require or allow Harvard students to take MIT 15.305 (which is a regular, non-ROTC MIT course) instead of AS.301/MS.302/NS.21.

This benefits Harvard ROTC students because 15.305 is not subject to the 8-credit cap that applies to their ROTC courses (AS/MS/NS courses).

All students who take MIT 15.305 must enroll in MIT 15.305 through my.harvard and meet all cross-registration deadlines and requirements.

Do NOT include "MIT 15.305" on your "Credit Petition for MIT ROTC Coursework" because retroactive credit cannot be awarded for MIT 15.305.

If you did not receive MIT 15.305 credit, then you can include AS.301/MS.302/NS.21 on your "Credit Petition for MIT ROTC Coursework" to receive 4 of your 8 Harvard credits for ROTC coursework.

The Harvard College Handbook for Students and the policies of the College and Registrar will govern if any conflict exists with the information above.
